

It is a great pleasure to invite you to join the **EBRAINS CoCreate Artificial Intelligence** a workshop series hosted by Danish Board of Technology on following dates: 25<sup>th</sup> November, 9<sup>th</sup> December, 13<sup>rd</sup> and 27<sup>th</sup> January.

We will cocreate research and innovation roadmaps that strategically reach towards a shared vision of the future, for AI in neuroscience and neuro-inspired technology. Take part to steer the development of AI in neuroscience, to expand your professional network and to explore the strengths of transdisciplinary cocreation.

## EBRAINS CoCreate Artificial Intelligence

Do you want to explore the intersection of neuroscience and artificial intelligence? Do you want to be a part of the next step in brain-related AI meanwhile building your professional network?

EBRAINS CoCreate: Artificial Intelligence is a transdisciplinary research and innovation (R&I) workshop that is worth your time. Cocreate ideas based on a shared vision across disciplines, national borders and spheres of research, practice, industry and civil society. Results will be available on [community.ebrains.eu](http://community.ebrains.eu).

We encourage all with interest in the subject of artificial intelligence and neuroscience to apply: [hbp.tekno.dk](http://hbp.tekno.dk)
